

SALES & DEMAND

REVENUE BY PRODUCT

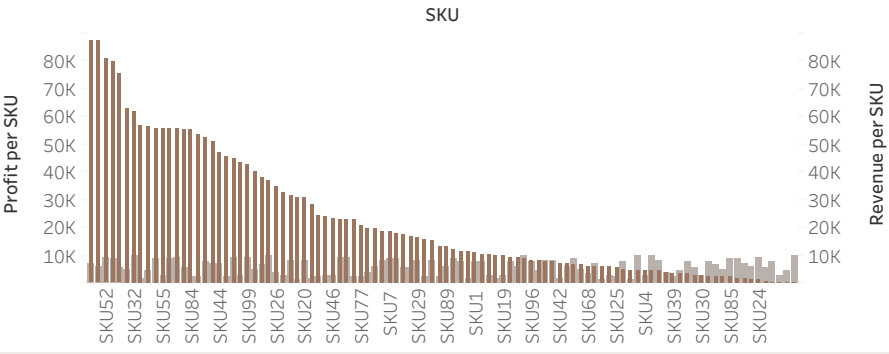

REVENUE PERFORMANCE BY SHIPPING CARRIER

REVENUE vs. PROFIT

//high revenue, high profit = best perform
//high revenue, low profit = high sales volume but high costing
//low revenue, high profit = high profit margins
//low revenue, low profit = low demand, high cost, product discontinuation

REVENUE COMPARISON

//high revenue per sku, low revenue = high unit price, low sales volume
//low revenue per sku, high revenue = low revenue, high sales volume
//high revenue per sku, high revenue = best sellers
//low revenue per sku, low revenue = require pricing adjustments

DEMAND vs. SUPPLY IMBALANCE

//high ratio, low availability (<30%) = good sales, stockout risk(demand exceeds supply, losing sales)
//low ratio, high availability = poor sales, overstocked
//balance ratio, balance availability (30-70%) = well-managed inventory
